

The **C40S** is a heavy duty Fluid Action Head specifically designed to support **FILM** and **STUDIO** cameras.

Counterbalance mechanism is activated by an 8-position easy grip selector, while the fluid control system allows the damping levels to range from "0" for free wheeling to 7 for maximum drag on both pan and tilt modes.

Standard features include the quick-release camera plate with safety lock, two adaptable telescopic pan bars and illuminated spirit level. The head comes equipped with a flat Mitchell base, and options include a **150MM** bowl base and the eye piece extension holder.

For **STUDIO/OB** configurations weighing up to 55 Kg (121 lbs), **C60S** offers an extremely cost-effective option. **C40S** and **C60S** interface directly with the Studio tripod series or the Heavy Duty tripods for extra ruggedness.

■ specifications

Payload capacity **C40S** at:

200 mm (8")	39 Kg (86 lbs)
150 mm (6")	45 Kg (99 lbs)
100 mm (4")	54 Kg (119 lbs)

Payload capacity **C60S** at:

200 mm (8")	45 Kg (99 lbs)
150 mm (6")	55 Kg (121 lbs)
100 mm (4")	65 Kg (143 lbs)

Weight: 11 Kg (24 lbs)

Pan range: 360°

Tilt range: +/- 65°

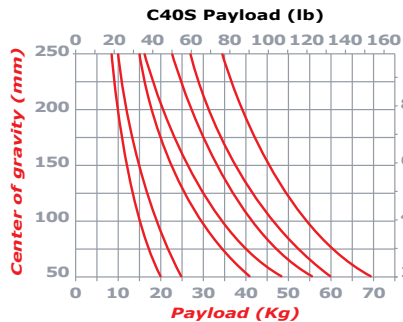

Counterbalance **C40S** : 7 steps + 0

Counterbalance **C60S**: 4 steps + 0

Fluid drag: 7 + 7

Bowl diameter: Flat Mitchell/150mm

Temp. range: -40°/+60°C (-40°/+140°F)
